

## FairPoint Hotspot

What is hotspot? Hotspot is FairPoint Communications' unique brand of Wi-Fi Internet access – allowing your customers to bring their computers in and access the Internet from your location. A proven revenue-generator, this popular new tool is a must-have for companies who attract today's computer-savvy consumers. Increase customer loyalty by giving them a reason to keep coming back.

Hotspot does not require costly wiring or installation and we will set it up and provide you with all the materials you'll need to get hotspot up and running.

Packages include:

- equipment
- technical support
- optional content filtering
- promotional materials

### FairPoint Hotspot features:

- > \$49.95 per month (does not include monthly Internet access)
- > Designed for businesses that want to provide free or revenue-generating Wi-Fi access to customers
- > A wireless, fast, affordable and easy to use product that gives you a competitive advantage
- > Access cards available, and a configurable splash page
