Business | Products & Services

All the **services** you need from the communications company you **trust** most.

FairPoint
communicationsSM

a full array of **products**

These days, local businesses understand the need to build customer loyalty, increase productivity, reduce cost and improve efficiency.

That's why FairPoint is dedicated to providing your business with a full array of products and services to help you do just that.

We understand how businesses work and what they need:

- > **Reliability**
- > **Total solutions**
- > **Cost-effective products**
- > **Quality service**
- > **Local customer support**

In fact, FairPoint can provide a wide range of business communications services to your company – all on a single monthly bill to make your job easier, as well.

products & services for **your** business

Business Telephone Service

From phone lines to data lines, FairPoint can provide all the assistance you need to configure phone service that's just right for your company, no matter how large or small.

Calling Features

Imagine calling one of your suppliers and hearing only ring after ring. That's why we offer business customers a complete array of calling features such as **voicemail**, **caller id** and **call forwarding** services – so you can be assured your customers can get in touch and stay in touch.

Long-Distance

To make it easier for you and your customers, we offer both outbound and toll-free long-distance services. Better yet, our long-distance service is reliable, easy to use and cost effective.

Business Telephone Systems

For years, companies like yours have trusted us to provide high-quality business telephone systems. No matter your company's size or requirements, we can offer the best system at the best price – complete with a wide range of features, expert installation, training and technical support.

DSL Internet Access

When you subscribe to FairPoint's DSL service, you can turn an ordinary phone line into a **high-performance** pipeline to the Internet. DSL – or Digital Subscriber Line – is up to 53 times faster than a 28.8 modem – and is a great way to save time and money.

T-1 Internet Access

Need an even **faster connection**? We also offer services for computer networks linked directly to the Internet – critical for companies with high Internet and file transfer demands, or for those businesses which need to send and receive large graphic, sound, and video files quickly.

Audio Conferencing

Telephone conferencing is becoming a way of life for most businesses, and we're proud to offer a system that helps you work harder and communicate better. Our teleconferencing systems can be operator assisted or fully automated, and include a wide range of options.

Web Conferencing

Why limit your conferences to the phone? We now offer businesses solutions like WebEx™, where you can share presentations, documents, web content and computer applications **real time** – while talking with your clients, co-workers or suppliers over the phone.

Credit Card Processing

When it comes to fast, secure processing of credit, debit and ATM transactions, FairPoint can provide you with a true competitive advantage. RBSlynk transaction processing can take advantage of your high-speed Internet connection giving you faster processing and better customer service.

Web Hosting and Domain Registration

FairPoint can help your business get connected – with everything from web hosting and e-mail to e-commerce. The best part is, our web hosting services are simple and easy to use. We can even help you register for a Domain Name – and we'll give you a Domain Name search for free when you sign an agreement for one of our web hosting packages.
